

# GEORGE SAMUEL

## Front-End Developer

✉ samuelamupitan827@gmail.com ☎ (+234) 8123854835 📍 Nigeria, Lagos  
🌐 linkedin.com/in/Samuel-amupitan 🐙 github.com/samuel24011

## EDUCATION

Certification

Front End Development

### Early Bell

📅 June 2022 - December 2022

📍 Nigeria, Lagos

Bachelor of Science in Physics (CGPA  
4.77/5.00)

### Crawford University

📅 2016 - 2020

📍 Nigeria, Lagos

## SKILLS

### Programming Languages:

JavaScript, HTML, CSS, Node.js,  
GIT

**Frontend Libraries:** React,  
Bootstrap

**Soft Skills:** Adaptability, Flexibility, Strong work-ethics  
and Team work

## CAREER OBJECTIVE

Front-End Developer with an ability to collaborate effectively with other web developers while spending extra time to be mentored. I enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for web development, I attended a 6 month+ coding academy to learn new languages while sharpening existing skills which are self-taught. I am ready to apply my passion for coding to a talented engineering team to develop quality solutions.

## PROJECTS

### A Gym Website

#### React, CSS

- Built a gym website with React and CSS which allows people to choose the kind of gym plans they will like to participate in. Bulk of the work was on de-structuring my arrays because I had a lot of them. Through using the map method in react I was able to achieve that. This made me avoid repetition and ease of dynamically changing any parts of the project without having to do them one by one. It took me 7 days to build it

## Aptech Website

### JavaScript, CSS, HTML

- Featured to build a school website with JavaScript, html and CSS which allows student to enroll in different programs. To ensure the email services worked well, Npm packages like EmailJS was deployed. It took 21days to build.

## Boot Camp Website

### Bootstrap only

- I also built a simple website with bootstrap only. It involves an accordion of frequently asked question, contact form and some other components. It took 2 days to build it

## Conferences Attended

- Digital marketing powered by google, Crawford university, Igbesa
- Science and Technology: Yesterday, Today and Tomorrow, Crawford university, Igbesa
- Scientific Innovation, Ignatius Ajuru University of Education, port harcourt.
- Sex and sexuality Awareness Training with Laide Oladimeji.

## Work Experience

### Network Technician, Trivest Technologies

#### Intern

📅 June 2019

📍 Onsite

- Coordinated the installation and configuration of BEEP VU wireless IP remote CCTV for various companies
- Collaborated with a team to carry out periodic maintenance of installed network appliances at various companies
- Editing 2D blueprints of various companies' structures using AutoCAD to plan the best and shortest routes engineers can use to run wires and install control centers.

### Ignatius Ajuru University of Education

#### NYSC

📅 June 2021 - June 2022

📍 Onsite

- Assisted students in completing their final year projects and other smaller projects in my department
- Also assisted lecturers in forming lecture notes for 100level students
